The A. & P. railroad is at present doing a heavy freight and passenger business. Such a large traffic at this time of the year is something unusual.

W. O. O'Neill, of Yavapai county, was a passenger on Wednesday's east bound passenger train. "Buckie" will soon start a newspaper at Sydney, Maricopa county, where he is interested in a ditch enterprise.

Nearly every town in the Territory has been complaining of business being dull. Less complaint about dull business is heard in Kingman than any other town in the Territory, so travelling men say, and they are pretty apt to know.

H. D. Ross, District Attorney of Yavapai county, was married to Miss Madeline Wheeler, at El Paso, Texas, on the 25th instant. They will reside in Prescott. The Miner joins the many friends of the happy pair in their congratulations.

A May-day picnic was given by the Kingman Sabbath school on Thursday. They spent the day at Smith's ranch eight miles southeast of town. The little folks, and the big, as well, enjoyed the day, and returned in the evening thoroughly tired out.

H. Buchman, an enterprising Tucson photographer, has sent this office a copy of his "Arizona Bonanzas," a collection of two hundred photos of Arizona babies, which he has printed on a card of cabinet size. It is an unique collection and is well worth the price, 25 cents.

Joseph B. Brobant was united in marriage to Miss Hattie Tuck, at Needles, on Thursday of this week. The bridal pair were the recipients of many presents from their friends. They will make Needles their home. The Miner heartily and sincerely congratulates the happy pair.

R. E. Brown and wife and daughter, Mrs. E. D. Sargeant, left on Saturday last for Newburyport, Mass. They went by the way of the Southern Pacific in order to avoid the high altitudes of the A. & P. fearing that they would have a serious effect on Mrs. Brown, who was still suffering from her recent illness.

Mrs. O. F. Kuenner has succeeded in raising by subscription \$128 for the purpose of buying the lumber with which to fence the cemetery. The lumber has been ordered, and in a few weeks our cemetery will be enclosed with neat fence. Mrs. Kuenner is to be congratulated on the success of her laudable effort.

The date for holding the adjourned term of the supreme court in Prescott has been changed from the first Monday in May to the first Monday in June. This being the day for opening the regular term of the district court in Prescott, the latter will be postponed one week, or until the second Monday in June. Journal-Miner.

A citizen of Kingman recently met, in San Francisco, O. L. Ambrose, the telegraph operator who murdered W. C. Davis at Peach Springs, last December, and who was tried at the April term of court in this place and acquitted on a technicality. Ambrose said that he is glad that he "killed Davis, and is sorry that he did not serve Bailey the same way." It is only a question of time when the hangman's knot will encircle the neck of the egotistical Mr. Ambrose.

Pat A. Doyle, was found dead in the water closet in the rear of J. E. Ryan's saloon building, about four o'clock Wednesday afternoon. He had been dead several hours when the body was discovered. Deceased was troubled with heart disease, and it was no doubt the cause of his death. A jury was summoned by Coroner Funston, who returned a verdict in accordance with the facts. Pat Doyle had been in this county for the past five years, off and on, part of the time in the employ of the railroad company, and the rest spent at mining.

## Mining Notes.

Contractor Frisk is pushing his work on the Queen Bee mine.

McKinnon & Koster are taking out the best ore ever taken out of the Allata.

The ground is being prepared for the erection of the hoist at the Flores mine. The new hoisting machinery for the Silver King and Flores mines is expected here next week.

J. J. Williams, superintendent of the Copper World and Antler mines, south of Yucca, has six men at work on the Antler. The ore taken out will probably be shipped to Prescott.

H. P. Ewing and Theo Harris have abandoned their project of leaching the dump on the Democrat, in Wallapai mountains. There is not enough ore on the dump to pay for erecting the necessary plant.

Messrs. Conkey and Brandon were in from the Tuckaho mine, at Chloride, this week, and report that the mine is looking fine, and they hope to be able to take that property, on which they have a bond, at its expiration.

Chas. H. Park has purchased the interest of C. A. Coon, in the Sabbath Bell mine, at Mineral Park. Mr. Park now owns all of this valuable property, and it is stated will shortly put a force of men at work developing it.

Dan O'Leary has bonded his mine in the San Francisco mountains to Frank Monaghan, of the Needles. There is considerable high grade ore in this mine, the "Old Hardy," and it is expected that San Francisco parties will take hold of it.

## Advice to Mothers.

Mrs. Winslow's Soothing Syrup has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once, produces natural, quiet sleep by freeing the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste, soothes the child, softens the gums, allays pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes.

## Signs of a Mining Boom in the Near Future.

For several years past three large teams, one a fourteen-mule team with three wagons, and two ten-mule teams of two wagons each, together with several two and four-horse teams, were able to handle the ore and freight of Mohave county. During the past winter there were two months lost time on account of heavy rains and bad roads, so that ore and freight accumulated, but miners generally were confident that there would be an advance in the price of silver. As the weather got settled and roads got good, men owning teams began to increase their capacity. F. F. Brown, who had run two ten-mule and horse teams, rigged out a fourteen-mule team. Mr. Beebe, who had but one team of fourteen mules, purchased a sixteen-mule team, also an eight-horse team. At the present time there are six instead of three large teams at work besides several small teams, and there is much complaint among miners that they cannot get their ore hauled. But the miners are in too great a hurry; the teams will soon catch up. If not, more teams will be put on, as Messrs. Brown and Beebe are live men and full of true grit.

The advance of silver will soon wake up the old camps. Already rumor has it that the McCracken and Peabody will again start up. These mills (one a 15 and the other a 20-stamp) will be again repaired. They have only laid off on account of the low price of silver. These mines contain mountains of ore of fair grade. It is rumored that a water power will be improved on Burro or Sandy creeks and an electric plant will be put up, thus saving the high price of wood.

Aside from these mines, the O. K. and the Music Mountain Mining Co.'s properties, the Flores and Oro Pata, between this place and Mineral Park, are putting up large hoisting works and it is expected that they will put up large mills.

At the present time all the miners that are at work are doing remarkably well. Owners of silver mines are in high spirits and they all have a smile on their countenances, and well they may have, for the advance in silver makes low grade ore pay and high grade ore in proportion. It is more than probable that within six months from this date there will be three times the amount of labor employed in Mohave county than has ever been since the first location of mines, twenty-five years ago. ## A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her; she bought a large bottle; it helped her more; bought another and grew better fast; continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For further particulars send stamp to W. H. Cole, druggist, Fort Smith. Trial bottles of this wonderful discovery free at H. H. Watkins' druggists.
